

2nd South Coast Regional Forum on Water Management and Planning
Monday, September 30, 2013 10:00 am – 2:00 p.m. pm
Santa Ana Watershed Project Authority Conference Room
11615 Sterling Avenue, Riverside, CA

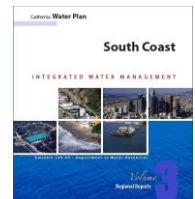

Please RSVP at: www.surveymonkey.com/s/South-Coast, \$10 for working lunch

Integrated Water Management: Future-oriented Approaches

Why Participate?

The realities of water management include a limit to the availability of imported water supplies. This places a greater emphasis on innovative local projects. The Forum will focus on the following:

- *Presentations* that help frame future water management:
 - Future Water Supply Reliability
 - San Diego's North City pilot project on direct and indirect potable reuse
 - Ventura County's focus on water quality through salinity management and desalting
 - Natural floodplain project and tie-in to climate change adaptation
- *Discussions* on statewide and local options for funding local projects and coordinated messaging to explain future funding needs and revenue streams
 - What are the costs of water in the South Coast?
 - What are people struggling with?
 - What are the pros and cons of various funding options?
- *Overview* of the Public Review Draft for Update 2013 of the California Water Plan
 - New features and revised content
 - South Coast Regional Report
 - How to comment

Please go to www.waterplan.water.ca.gov/materials/index.cfm?subject=sep3013 to download the agenda, webinar link and conference call number. Both the webpage and agenda provide the webinar and conference call information for remote participation.

Additional meeting materials will be posted as they are available. The most recent draft of the South Coast Regional Report will be posted on September 13th.
